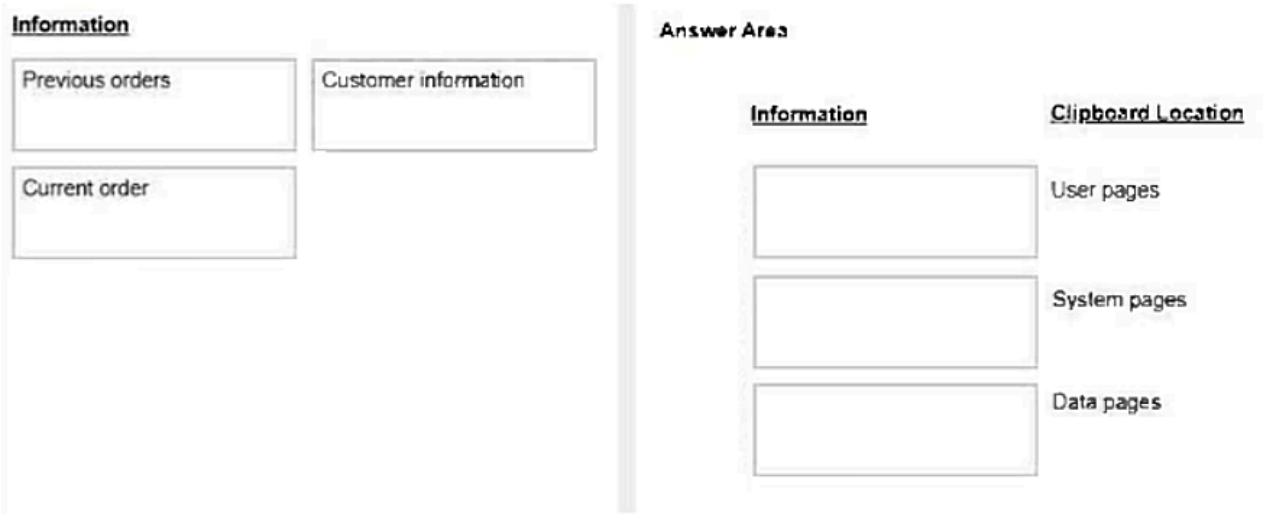
Question #3 *Topic 1*

DRAG DROP -

An organization requests the following behavior for a case type that allows customers to place orders for fulfillment.

- The application identifies customer information, such as user ID and locale, upon login.
- Cases list the last 10 orders placed by the customer, including the order status.
- Customers can select one of the previous 10 orders as the basis for the current order.

Select each piece of Information on the left and drag it to the appropriate Clipboard Location.



Suggested Answer:

1. Previous orders
   - **Data pages**
2. Customer information
   - **User pages**
3. Current order
   - **System pages**
