Question #1 *Topic 1*

You need to meet the following goals for a customer's large-scale network:

Many-to-many connectivity environments that require high performance

Unknown or varying IO traffic patterns

SAN-wide storage pooling connected to backbone switches

Which type of FC SAN fabric should the customer Implement?

A. Core-edge fabric

B. Cascaded fabric

C. Ringed fabric

D. Meshed fabric

Suggested Answer: *D*

Community vote distribution

A (100%)

Question #2 *Topic 1*

You are using the HPE ProLiant SSD Selector Tool. The customer requires a common protocol for authenticating and attesting to drives in an HPE server or storage system.

Which drive type should be chosen?

A. TPM

B. SED with FIPS

C. SPDM

D. SED

Suggested Answer: *C*

Currently there are no comments in this discussion, be the first to comment!

Question #3 *Topic 1*

What is the name of the principle that says digital data is subject to the laws and governance structures of the country where it is collected, stored, or processed?

A. Data resiliency

B. Data sovereignty

C. Data protection

D. Data convergence

Suggested Answer: *B*

Currently there are no comments in this discussion, be the first to comment!

Question #4 *Topic 1*

Which type of FC port connects to another switch using an inter-switch link (ISL)?

A. FL_Port

B. E_Port

C. F_Port

D. U_Port

Suggested Answer: *B*

An E_Port connects switches through an inter-switch link.

Question #5 *Topic 1*

Which lossless storage protocol can be used in the same infrastructure with VM traffic?

A. NVMe over Ethernet Fabric with RoCE

B. NVMe over InfiniBand Fabric

C. NVMe over TCP/IP

D. NVMe over FC Fabric

Suggested Answer: *C*

Currently there are no comments in this discussion, be the first to comment!

Question #6 *Topic 1*

Which function is responsible for the key parameter communications between data center bridging (DCB)-capable devices?

A. ECN

B. APP

C. DCBX

D. ETS

Suggested Answer: *C*

Currently there are no comments in this discussion, be the first to comment!

Question #7 *Topic 1*

Which FC SAN feature restricts communications with devices in the same zone?

A. Private VLANs

B. Peer zoning

C. Fabric segmentation

D. Private zoning

Suggested Answer: *B*

Currently there are no comments in this discussion, be the first to comment!

Question #8 *Topic 1*

You are adding a cluster in the HPE Ninja Online SimpliVity Sizer tool.

Which two cluster types can be added for data protection?

A. HPE SimpliVity and HPE StoreOnce

B. HPE SimpliVity and HPE GreenLake for File Storage

C. HPE StoreOnce and Veeam

D. HPE StoreOnce and HPE GreenLake for File Storage

Suggested Answer: *A*
In the HPE SimpliVity sizer, data protection is sized by adding a remote/backup target cluster, which can be another HPE SimpliVity cluster (federation replication) or an HPE StoreOnce system (SimpliVity-integrated StoreOnce backup). Veeam and GreenLake for File Storage are not cluster types in that tool.

Question #9 *Topic 1*

Which component of the HPE GreenLake Data Services Cloud Console would a customer use to define replication while applying protection for volume sets for HPE Alletra Storage MP B10000 arrays?

A. File Storage tile

B. Block Storage tile

C. Backup and Recovery tile

D. Data Ops Manager tile

Suggested Answer: *B*

Currently there are no comments in this discussion, be the first to comment!

Question #10 *Topic 1*

When adding an HPE Alletra 2240 NVMe drive enclosure to an existing Alletra MP B10000 storage solution, what is the minimum number of drives that must be installed in the enclosure?

A. Two

B. Four

C. Eight

D. Twelve

Suggested Answer: *B*

Currently there are no comments in this discussion, be the first to comment!

Question #11 *Topic 1*

A customer needs a block storage solution that supports 1,000x SFF (small form factor) disk drives as well as 64x 32 Gbps FC HBAs.

Which solution is appropriate for this customer?

A. HPE Alletra 6000

B. HPE Alletra Storage MP B10000

C. HPE SimpliVity

D. HPE XP8

Suggested Answer: *D*

Currently there are no comments in this discussion, be the first to comment!

Question #12 *Topic 1*

Which HPE SANnav component provides visibility and insight across the storage network through diagnostic, monitoring, and management technology?

A. MAPS

B. Flow Vision

C. COMPASS

D. Fabric Vision

Suggested Answer: *D*

Currently there are no comments in this discussion, be the first to comment!

Question #13 *Topic 1*

A customer has a VMware vCenter solution to handle most of their workloads. The customer will be purchasing a pair of HPE Alletra Storage MP B10000 systems on which they will run most of their existing workloads.

They want to ensure that allocation units are aligned to get the best efficiency out of their new storage solution.

Which VMware software should the customer use to port the VMs?

A. VMware vCenter vMotion

B. VMware vSphere Auto Deploy

C. VMware vSphere Update Manager

D. VMware vCenter Converter

Suggested Answer: *D*

Currently there are no comments in this discussion, be the first to comment!

Question #14 *Topic 1*

An HPE Partner is building an HPE Simplivity solution for a customer and is using the SimpliVity Sizer on the HPE Ninja Online portal.

Which two HPE ProLiant platforms will the sizer recommend? (Choose two.)

A. HPE ProLiant DL325

B. HPE ProLiant DL345

C. HPE ProLiant DL360

D. HPE ProLiant DL380

Suggested Answer: *B, D*

Currently there are no comments in this discussion, be the first to comment!

Question #15 *Topic 1*

Which HPE Alletra 9000 CLI command can a customer use on an existing data set to determine if it is a candidate for deduplication and/or compression?

A. checkvv

B. servicefilesystem

C. compactcpg

D. tunesys

Suggested Answer: *A*

Currently there are no comments in this discussion, be the first to comment!

Question #16 *Topic 1*

When building an HPE Alletra 9000 storage solution, what is the minimum number of SSD drives that must be installed in the controller node?

A. Two

B. Eight

C. Twelve

D. Twenty-four

Suggested Answer: *A*

Currently there are no comments in this discussion, be the first to comment!

Question #17 *Topic 1*

What can be used to manage a greenfield HPE dHCI integrated solution of compute, storage, and VMs based on an HPE Alletra 5000 or 6000 storage array(s)?

A. HPE GreenLake for Data Ops Manager cloud console

B. HPE GreenLake for VMware Cloud Foundation cloud console

C. HPE GreenLake for Block Storage cloud console

D. HPE GreenLake for Private Cloud Business Edition (PCBE) cloud console

Suggested Answer: *D*

Currently there are no comments in this discussion, be the first to comment!

Question #18 *Topic 1*

Many of HPE Infosight's analytics features have been ported to HPE GreenLake Data Services.

Which two analytics features are unique to HPE GreenLake Data Services? (Choose two.)

A. Resource planner insights

B. Workload drift and latency variation insights

C. Top VMs and volumes responsible for performance issues

D. Headroom analytics insights

Suggested Answer: *A, D*

Currently there are no comments in this discussion, be the first to comment!

Question #19 *Topic 1*

A customer needs to support iSCSI on HPE Morpheus VM Essentials Software for a specific workload.

Which data store should the customer add to implement this support?

A. NFS Pool

B. Directory Pool

C. GFS2 Pool

D. Local Pool

Suggested Answer: *C*

Currently there are no comments in this discussion, be the first to comment!

Question #20 *Topic 1*

You are preparing an HPE Alletra Storage MP solution for a customer.

What allows the customer to store multiple compressed pages in a single 16 KB physical page?

A. Thin provisioning

B. Data packing

C. Deduplication

D. Virtual cloning

Suggested Answer: *B*

Currently there are no comments in this discussion, be the first to comment!

Question #21 *Topic 1*

Which HPE solution should a customer purchase to manage an EVPN fabric network comprised of HPE Aruba Networking switches?

A. HPE OneView

B. HPE Aruba Fabric Composer

C. HPE SANnav

D. HPE Data Center Network Manager

Suggested Answer: *B*

Currently there are no comments in this discussion, be the first to comment!

Question #22 *Topic 1*

An HPE Partner is designing a storage solution around the HPE Alletra Storage MP B10000 in a switched solution. The solution contains seven controller nodes.

How many nodes can fail while the solution can still maintain a quorum?

A. One

B. Two

C. Three

D. Four

Suggested Answer: *B*
Seven nodes require four votes for quorum, so two may fail.

Currently there are no comments in this discussion, be the first to comment!

Question #23 *Topic 1*

An HPE Partner has sold a customer an HPE Alletra Storage MP X10000 solution. The customer removed three drives intentionally, resulting in a catastrophic failure.

What advice should the partner offer to the customer?

A. To recover, HPE support/engineering will automatically advise and implement the recovery steps.

B. The rebuild automatically starts on an integrated spare and, upon completion, data services will be available and IO continues.

C. The customer should insert the same three drives back, which should cause an automatic recovery of the system.

D. All data services will gracefully shut down, and there will be a loss of availability; HPE support/engineering needs to get involved and implement the recovery steps.

Suggested Answer: *D*
